WhereTag IV™
Driver's Side Mirror - Installation Instructions

STEP 1: Confirm that you have all of the parts listed, including a standard-sized flathead screwdriver to complete this installation and a pencil or pen to record the tag and license plate information requested below. Enter this information first, before you install the tag.

Flathead screwdriver and pen or pencil are not included in the kit

Parts as shown in Figure 1:
- Two 11” pipe clamps
- Two 4.5” pipe clamps
- Tag Assembly

Before installing the tag assembly onto the mirror, write the last eight (8) numbers shown on the tag label in this box:

Write down the license plate number from the front bumper of your truck in this box:

Figure 1B - License Plate Information
STEP 2 Using 2 of the provided pipe clamps, fasten the Tag Mount onto the top mirror bar on the **driver's side** as shown in Figure 2A. If there is no top mirror bar, use mirror bars shown in Figure 2B or 2C below. Use the two (2) pipe clamps that best fits the bars.

**Non-Standard Single Arm Mirror Types**

Figure 2A - Preferred Location

Always fasten on the Driver's Side to the top bar as shown in Figure 2A.

STEP 3 Adjust the mount so it is level on the mirror bar as shown in Figure 3. Tighten clamps firmly.

Always position the clamp screws on the bottom of the bar opposite the Tag Mount fixture.

**Step 4**

Tag Validation and Registration Required for Access to the Marine Terminal

Turn this form into the person at your company that inputs the information into eModal. Have them login to eModal, click on the RFID Tag Tab, assign the RFID Tag to Truck, enter the Truck License Plate Number and last eight digits of the Tag.

*Failure to complete this step will cause delays at the marine terminals! You will be denied access by the marine terminals!*
